History

History is the study of past events, particularly in relation to human civilization. It is a discipline that seeks to understand the causes and consequences of human actions and the development of societies over time. History is often taught in schools and universities, and it is a field of research that is constantly evolving as new discoveries are made.

Vision

Vision is the ability to see things as they are, and to understand the future. It is a skill that is essential for leadership and for the success of any organization. Vision is often described as the ability to see the big picture, and to understand the long-term goals of an organization. It is a skill that is often taught in business schools, and it is a key component of strategic planning.

Mission

Mission is the purpose of an organization, and the reason for its existence. It is a statement that describes the organization's goals and objectives, and the values that it stands for. Mission is often used to guide the organization's actions, and to ensure that it is focused on achieving its goals. It is a key component of corporate strategy, and it is often used to communicate the organization's purpose to its stakeholders.
